Press Release

TAKE WOODY WAGOON™ ON YOUR NEXT EXPEDITION

Reach the summit of coolness with the new Ford Expedition! Woody Wagon's new Ford Expedition "Woody" Kit recalls those great "wood" Wagons of the past. The timeless design and long history of woodies as the rugged work-horse was forever changed to include luxury appointments and comfort.

Our new "Woody" kit projects the same image and is even more exclusive than the original. The simulated "Marine Teak" panels surrounded by our raised, quarter -round "Santa Rosa Oak" trim produces a true three dimensional effect just like the original vehicles. The combination of high-quality vinyl panels and extruded trim is not only beautiful, it is also maintenance-free.

The Woody Wagon™ Ford Expedition "Woody" Kit is designed for the home installer, or can be installed by your local body shop. All components are pre-formed, labeled, and detailed, photo-illustrated instructions are provided. Also, tech help from our professional installers is just a phone call away - whether a first-time installer or a savvy professional. Call today for the location of your local retailer or installer, or to order direct.

All the materials provided are OEM-approved and manufactured in North America at ISO 9001 facilities. The use of high-quality, application-specific materials permits Woody Wagon™ to offer a 3-year warranty against defects in workmanship and materials.
