Press Release

NEW CAR - COOL KIT! PT Woody's™ Convertible Kit - Redefining Cool.

Redefine your convertible Cruiser with PT Woody's™ innovative new Woody™ II kit. The Woody™ II is based on our award winning wood kits which have been pleasing customers for years. It features the classic wood look for the modern driver of today. The Woody™ II kit comes complete and ready to install, with the option of a solid, smooth wood grain or simulated wood panels utilizing a pinstripe technique.

The wildly popular Cruiser Convertible has a great new look and the Woody II™ Kit complements it perfectly! The PT Woody™ II kit features that classic wood look you'll love with simulated planking and other enhancements that give your PT the edge that you need! Our "Woody II" package draws attention and wins awards in every show it enters. You'll soon discover that driving this hot coupe with a Woody™ kit is like being featured in a car show every day.

The durability of the PT Woody kit is exceeded only by its genuine good looks with all materials manufactured to ISO 9001 standards. Our 3M attachment system and quality materials allow us to give you an unprecedented three-year guarantee .

This is not just another "graphics" kit, or expensive, maintenance-intense, "real" wood aftermarket accessory. The dark "Marine Teak" panels are a heavy "Di-Noc" vinyl, and the outer "Santa Rosa Oak" trim is a proprietary, raised, quarter-round plastic molding that covers the edge, and rises above, the "Teak" panels. Our Woody™ kit gives your popular Cruiser a true 3-dimensional look with a dark "wood" surface just like the original Woody's had in the '40's!

All kits are shipped ready-to-install. The detailed instructions are designed for the first-time installer and consist of two manuals, text and photos, that make the installation trouble-free. Even if you need a hand, tech help from PT Woody's professional installers is just a phone call away. Hundreds of home enthusiasts-even an 80-year-old grandmother, have installed our kits! Call today for the location of your local retailer or installer, or to order direct.
